PIXELBOT BOUTIQUE EXPERIENCE

We pride ourselves on not just offering a box that takes photos...

We are a forever entertainment.

We offer a unique boutique experience which is interactive, fun and ensures that your guests are entertained while we capture high quality photos.

ABOUT US

Hi there! My name is Anne-Marie and I'm the proud owner of a family-run business that provides forever entertainment services.

This is entertainment for your guest that captures a video, photo or audio that lasts forever.

My husband, Tony, is the mastermind behind the tech elements of our company and build each any every booth. I attend every event to ensure that everything runs smoothly and that our customers are satisfied.

Our family-run business offers a personalised experience, ensuring that every detail is perfect. From our state-of-the-art technology to our exception props, we're committed to providing the highest quality service.

I love attending every event and interacting with your guests, hearing their stories and making memories with them. I know that Tony's expertise and attention to detail when it comes to the technical aspects of our service is what makes our company truly exceptional.

HIGH QUALITY EQUIPMENT

Camera

No webcams here!
We use DSLR cameras for our photo booth. They provide high image quality: DSLR cameras are known for their excellent image quality, thanks to the larger sensors and advanced image processors they use. This means that your photos will be sharper, clearer, and more detailed, even when printed in larger sizes.

Printer

We use a special sub dye sublimation printer which produces fast professional printouts on the night

Props

We are always curating unique and creative props. They bring our experience to life and help produce amazing photographs.

INFLATABLE

This is our 3m x 3m x 2.6m white **inflatable** photo booth.

This booth creates an enclosure that can be illuminated from the inside, creating an evenly lit environment allowing for amazing photos of you and your guests. It provides a neutral and uniform background that creates a clean and professional-looking image. The enclosed design create a physical barrier between your guests and the party, allowing for greater privacy and comfort. We have found that people take much funnier photos when no one can see them. The inflatable design allows for quick and easy setup and pack down creating minimal disturbance to your event.

OPEN AIR

An **open-air** photo booth drape backdrop system is a type of setup where a background drape or curtain is used instead of an enclosed space to provide a visually appealing background for the photos and looks good in the room.

The benefits of using an open-air photo booth drape system over an enclosed space include:

Flexibility: A drape system can be adjusted and repositioned to accommodate different types of events and setups.

Portability: A drape system can be adjusted in size to ensure it will fit in at any venue.

Versatility: With a drape system, you can use different colour and texture options to create different effects and moods, making it a versatile choice for various types of events. If your venue has a natural wall or background that you would like to use as the backdrop to your photos, we can use our drape system to frame the area.

PIXELBOT CLOUD

In a nutshell, we have created PixelBot secure cloud gallery our cloud hosting solution where we save all the photos, boomerangs and videos from your event. We create a dedicated folder specifically for your event and password protect it. You will be given a password to access the area, and you can share this with family and friends who you want to access them.

The screenshot displays the PixelBot Cloud gallery interface. On the left, there is a sidebar with the PixelBot logo, 'Cloud Albums', 'PixelBot Website', 'Event Types', and a 'Search' field. The main area is titled 'Weddings' and 'Galleries', showing a grid of photo thumbnails. Each thumbnail includes a date and names, such as 'Sayf and Megan [08-09-2021]', 'Bill and Chloe [28-08-2021]', 'Will and Sam [09-08-2019]', 'Dom and Anna [08-04-2022]', 'John and Becca [01-08-2022]', and 'Victoria and Ross [10-08-2022]'. Below the gallery, there are four feature boxes: 'Secure', 'Guest Uploads', 'Mobile Access', and 'Free Downloads'.

Guest Uploads

Take a photo on your phone or tablet.

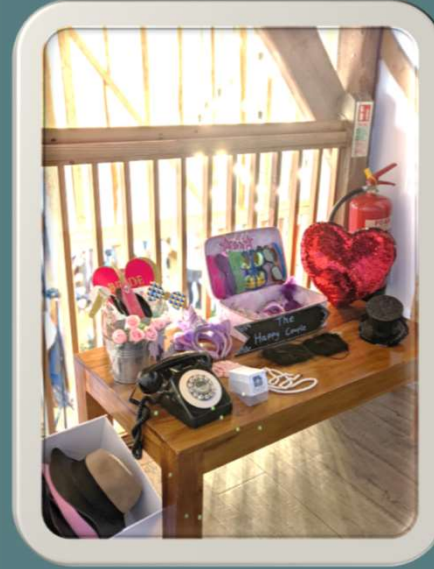

Scan QR code or visit webpage we provide.

Select which photos / videos you want to add to the cloud.

Enjoy all content in one place!

PROPS

No photo booth is complete without a set of props to express yourself with and we aim to please. We have a large selection of props available to suit all types of parties. Props include.... Inflatable Musical instruments, Hats, Wigs, Head Pieces, Coloured Glasses, Quality Props on Sticks, Emojis, Word Boards, and many more. We can also provide bespoke props on request which can be very useful for specific themes or event-related items.

VIDEO GUEST BOOK

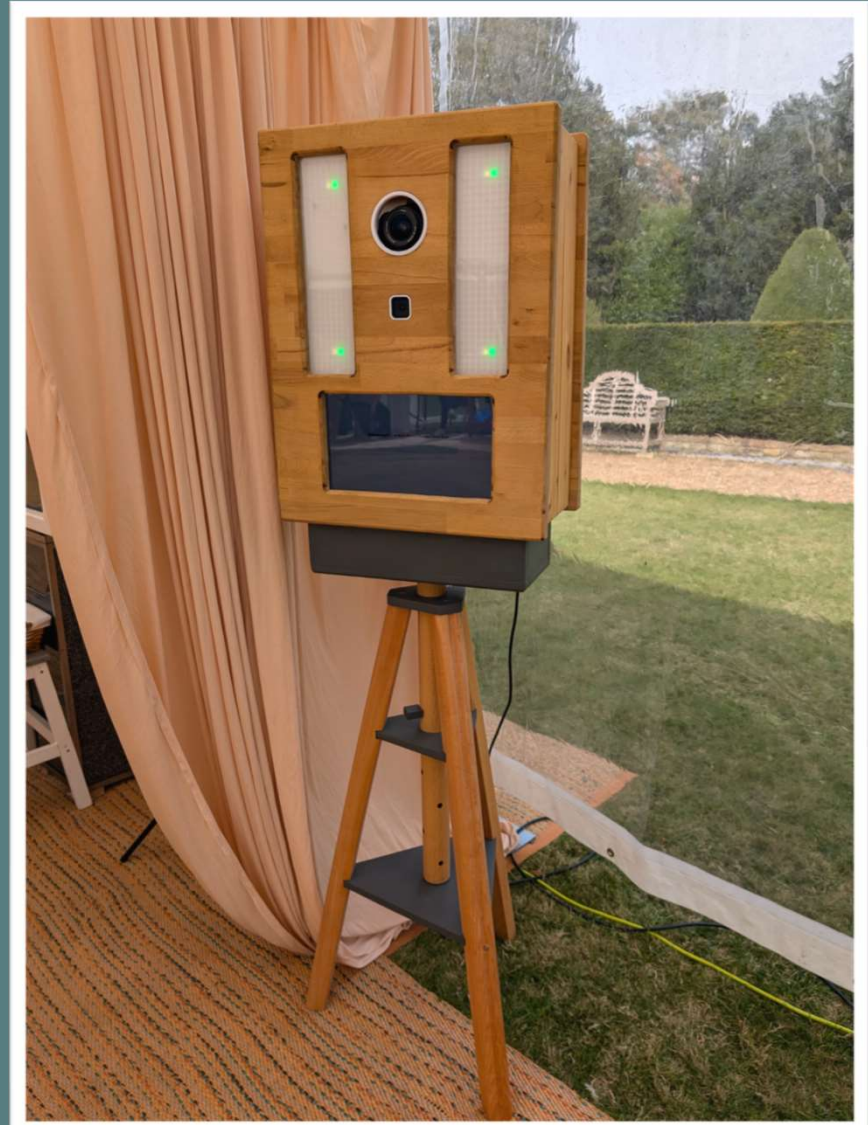

Our video guest book service offers a unique and memorable way to cherish your special occasion. We attend your event, interact with your guests, and capture heartfelt messages on video. These personalised clips create a lasting keepsake that you'll treasure for years to come.

Traditional guest books often go unused at events. Our video guest book ensures that every guest has the chance to share their well wishes in a meaningful and engaging way.

Our service is designed to be both affordable and professional. We provide a dedicated staff member, ample recording time, high quality footage, and a beautiful edited final video.

Includes:

- A MEMBER OF OUR DEDICATED STAFF PRESENT
- THREE HOURS OF RECORDING TIME
- 1080 & 4K RECORDED FOOTAGE
- EDITED FINAL VIDEO OF THE EVENT

AUDIO GUEST BOOK

An audio guest book is a modern twist on the traditional written guest book. Instead of penning down messages, guests record their well wishes and memories using a microphone and recording devices. These recordings are compiled into a personalised audio keepsake that you can cherish forever

Audio guest books offer...
Authenticity: Recorded voices capture the raw emotion and sincerity of your guests.

Personalisation: Your guests can share stories that they may not have written down.

Entertainment: This is a fun interactive way for your guests to leave you messages.

Keepsake: It's a unique and tangible memento of your wedding day.

Includes:

- A MEMBER OF OUR DEDICATED STAFF PRESENT
- Four HOURS OF RECORDING TIME
- EDITED SOUND CLIPS OF THE EVENT
